Carlos Jacobo

I´m Carlos Ernesto Jacobo Pixtún. I´m in 10th grade and I´m 16 years old. My mother is a housewife. I´ve lived all my life in Choatalun, near San Martin Jilotepeque with mother and 3 brothers. My mother works cleaning houses. My father abandoned us so we really need a little help. I like to study. I´m studying about computers. I work in my house helping my mom because my mom can´t pay for my school. In the future I would like to help my little town by helping everyone know that going to school is so important to contribute with the development. I´ll work so much to get good grades so that everyone will feel proud of me.
